MEMORANDUM FOR DPW HAZMART

SUBJECT: Authorized Use List for Wash Racks.

1. The following products have been reviewed by the DPW Environmental Division and are the only products currently authorized for purchase and use at all wash racks on Fort Hood where the use of cleaners or detergents are allowed:

- a. Earth Soap manufactured by Spray Nine Corporation
- b. BioRem-2000 manufactured by Clift Industries, Inc.
- c. VPW SC-1000 supplied by Orison Marketing, LLC
- d. SC-Aircraft and Metal Cleaner¹ supplied by Orison Marketing, LLC
- e. AV-8 Military Aircraft Cleaner¹ manufactured by Spray Nine Corporation
- f. ALK-774¹ manufactured by Eldorado Chemical Co., Inc.

¹(product meets MIL-PRF-87937 specification as a Type IV aircraft cleaning compound)

2. The use of unauthorized products could result in administrative or criminal punishments, penalties, fines, or closure of unit wash racks, depending on the nature and extent of the violation. Use of authorized products must follow the manufacturer's instructions in order to maximize their effectiveness and minimize the discharge of pollutants to the environment.

3. The POCs for obtaining additional information are Mr. Riki Young, Water Program Manager (287-8712), Mr. Alex Kachura, Classification Unit Manager (288-5132), Mr. Adam Alexander, Hazmat Program Manager (287-9718), or the Environmental Compliance Assistance Team (287-9103).

STEVEN G. BURROW
Chief, Environmental Programs
